

Profile Summary

Result-Oriented IT professional with **3 years** of hands-on experience in **Data Engineering, Application Development and Cloud Infrastructure** Management for the **Fintech Projects**. Adept at **translating technical concepts** for clients and stakeholders, and possessing strong **teamwork, problem solving, and adaptability** skills. Seeking to leverage my diverse skill set to contribute to innovative data projects and drive organizational success in data-driven roles.

Skills

- **Programming & Scripting Languages:** Python, SQL, Shell, JavaScript
- **Data Analysis & Visualization Tools:** Advance Excel, PySpark, Power BI, Splunk
- **Database Management:** PostgreSQL, MySQL, SQLite
- **Cloud Platforms:** Azure
- **ETL & Data Integration:** Informatica
- **Version Control:** Git
- **Other Technologies:** Data Structures and Algorithms (DSA), REST APIs, Django, Microsoft Server, Prompt Engineering

Experience

Infosys | Professional Technology Analyst (Outsourced from Fiserv) Aug 2022 – Present

- Developed and deployed automation scripts using **Python and PowerShell** for software deployment, patch management, and updates, **reducing manual effort by 80%**.
- **Extracted and synthesized data** from **relational databases** for endpoint management tools, generating **actionable reports** and improving reporting efficiency by 25%.
- Orchestrated automated **solution mechanisms** and **tool pipelines** to efficiently prioritize and **manage over 1,000+ daily alerts**, ensuring the timely resolution of critical issues and achieving a **50% reduction in average response time**.
- Led a major project to onboard over 500 client user endpoints onto Tanium monitoring and remote application systems, achieving **90% efficiency** in deployment and ensuring **seamless integration** and **enhanced system performance**.

Fiserv | Technology Program Analyst Aug 2022 – Aug 2024

- Oversaw critical infrastructure components, including **windows servers, file storage, and network components** (TCP/IP, DNS, DHCP, and VPN), ensuring **95% uptime**.
- Collaborated with **cross-functional teams** to ensure **99% operational efficiency** and **high availability** of services.
- Deployed and supervised cloud-based resources and applications on **Azure**, resulting in a 30% increase in system performance and reduced operational costs by 15%.

Cureya (Internship) | Backend Developer Sep 2021 – Nov 2021

- Implemented social authentication (**OAuth**) as well as securely managed user **authorization** from the DB.
- Integrated email alert notification feature for hospital patient management web application.
- **Contributed** to the implementation of **AES encryption** for secure data storage and **SSL/TLS** for **data transmission**.

Certifications & Achievements

- **DP-900 (Microsoft)** Azure Data Fundamentals
- SQL (Hacker Rank)
- Python (Hacker Rank)
- **InfyTQ** Qualifier

Education

Bachelor of Technology in **Information Technology & Computer Science**
From Jawaharlal Institute of Technology, AFF **RGPV**, Bhopal

Aug 2018 – Apr 2022
